

Special Features

Four large-capacity cartridges provide maximum filter surface area for greater dirt-trapping.

- Cartridge elements can be easily removed
- Fibreglass reinforced polypropylene tank for exceptional strength and long life.
- Climate and chemical resistant
- Quick union for easy installation
- NSF certified raw material
- Less heavier plastic housing makes it easy for installation and more economic for industrial applications
- Cartridge media easy to clean and reuse

Filter Cartridge Specification

Model	TCF325	TCF425	TCF525
CartridgeDia (inches/mm)			
CartridgeLength(inches/mm)	20/508	26/662	32.8/833
FiltrationArea(sq. ft)	325	425	525

Filter Cartridge Specification

Model	Filtration Area F1		Working	Design
TCF325	325	30.2	70PSI	462LPM
TCF425	425	39.5	70PSI	568LPM
TCF425	525	48.8	70PSI	750LPM

Flow Rate is determined by the pump size and the piping system
Filter Cartridge Dimension

Model	Dim.A mm	Dim.B mm	Dim.C
TCF325	1070	410	590
TCF425	1220	410	590
TCF525	1370	410	590
